Irma Times—Papers for June \$24.00

Calgary Power—Elec. Light \$2.30

M. K. McLeod—Blacksmithing \$6.26

E. E. Tury—Blacksmithing \$17.50

E. E. Tury—Blacksmithing \$15.00

Richardson Road Mach—Repairs \$22.40

R. Larson—Repairs \$11.10

CHAUTAUQUA WILL SOON BE HERE

IRMA CHAUTAUQUA DATES
ARE AUGUST 6th, 7th, 8th, 9th

Citizens are reminded that the Chautauqua is coming to Irma August 6, 7, 8, and 9. Watch for descriptive literature and programs. Season tickets will soon be on sale.

FAIR NOTICE

At a meeting of the directors of the Irma Agricultural Society held July 11th it was decided to cancel the fair for this season owing to the late condition of the crops.

U. F. A. AND U. F. W. A. RALLY
A Rally of the U. F. W. A. and U. F. W. A. Provincial Councils Association will be held on Saturday, August 3rd at eleven o'clock on the picnic grounds in the Buffalo Park. Business Meeting in the morning. Addresses by Mr. Love and a cabinet minister in the afternoon. Basket Picnic, Tea and Coffee provided. Come and bring your friends. 2t.

49th BATTALION (EDMONTON) REGIMENT ASSOCIATION

3rd ANNUAL CHURCH PARADE

Edmonton, Alta., June 29, 1929

Dear Sir:
"The third annual church parade of the 49th Battalion Association will be held in Edmonton on Sunday, July 21st next. The parade will assemble on the Market Square at 2 P.M. precisely. All ranks will 'Fall in' in their former companies.

Dress: Civilian clothes will be worn with medals and decorations. The service will be held on Parliament Hill park, out of doors, so that all relatives and friends of the members may have an opportunity of taking part in the service.

A luncheon, which friends and relatives can be brought has been arranged at a reasonable price to take place at 12 noon in the Rose Room at the King Edward Hotel.

Earl Hay, Sec., 49th Batt. Assoc.

ALBERTA FARM LOAN BOARD NAMED

The personnel of the Alberta Farm Loan Board as nominated by the provincial government and accepted by the Federal Farm Loan Board at Ottawa will include J. C. Murray of Edmonton, A. H. Tovell of Calgary and George Bennett of Mannville. Hon. R. G. Reid, Provincial Treasurer, in making this announcement expresses the belief that the government has secured a highly efficient board to which may safely be entrusted the administration of the new Act in this province. Mr. Murray, the chief executive officer of the board has been until recently a member of the Edmonton staff of Credit Foncier. He will give his full time to the farm loan work, his associate members being available for such time and service as may be required. Mr. Tovell is chairman of the Municipal Hall Insurance Board and Mr. Bennett is a well-known director of the Alberta Wheat Pool. Steps will be taken at an early date towards bringing the new Act into operation in Alberta and a number of applications and inquiries already in hand respecting farm loans will be dealt with as soon as possible.

FOOTBALL BEING REVIVED LOCALLY

A good crowd of enthusiastic spectators gave Irma a loyal support when they met Viking in a football match at Irma. The game was scheduled for 7.30 P. M. but owing to late comers the game did not get under way until 8.00 P. M. Irma got away with a good start with their fast forward line, but soon had to play a defence game where Hadlow and Herbert the Irma burly backs played a wonderful game. The well trained Viking team in their green and white suits played combination the whole game through which finally won them the game. The half time score was 2-0 favor Viking. During the second period Irma forwards were able to worry the Viking backs a little better than in the previous half and showed very good play but Viking was too good for the Irma boys and the score was at full time, Viking 5, Irma 0. The following men played for Irma. Goal, Huffman; Backs, Hadlow and Herbert; Halves, Fischer, Masson and Myers; Forwards, Wilbraham, F. Maguire, Shorty Christensen, Craig and Finch. Referee Mr. Bainbridge.

The next game at Irma on Friday, July 26th against Phillips. Come on Irma turn out and root for your home team.

RE FOOTBALL.

Editor, Irma Times,
Dear Sir:

In reply to the 'open criticism of the Irma supporters of Tuesday last football match, against Viking. Although Viking offered to let me put any late comers into the field after the game had started. We showed our appreciation but sportsmanship by playing till half time when a change was made.

As this was the first game of football in Irma for many years and also that we are doing our best to get this much sport active again, there is nothing like starting right, and making the picked players understand that the kick off time is as agreed on and not half or three quarters of an hour later.

Thanking you for the space in your paper.

Yours respectfully,
Chas. Wilbraham, Captain.
The Irma football team will practice on Tuesday night. Will all players please turn out.

PROPOSED BY-LAW No. 27

A By-Law of certain portions of the Municipal District of Battle No. 423 for Restraining Animals at Large.

1. In this By-Law unless the context otherwise requires the term animal means and includes horses, cattle, sheep, swine, goats, poultry and all animals commonly known as domestic animals.

2. No animal the property of any person shall at any time be at large in those portions of the said Municipal District commonly known as Division 5, but more particularly only as described as follows.

Division No. 5
All of Township 46 Range 8 West of the Fourth, Sections 1 to 36 inclusive and the North half of Township 45, Range 8 West of the Fourth, Sections 19 to 36 inclusive.

3. For all purposes of this By-Law any animal shall be deemed at large which is off the premises of its owner and is not under control (direct) of its owner or some one acting under its authority or is not confined within any building or fenced field.

4. This Council of the said Municipal District may from time to time establish pounds at such places as to it may seem advisable. All poundkeepers shall be bound by the provisions of the Domestic Animal Act (Municipalities) being 1923 Statutes of Alberta Chapter 25 and amendments thereto or substitutions thereof.

5. Any animal at large contrary to the provisions of this By-Law may be impounded and dealt with in accordance with the Domestic Animal Act being chapter 25 Statutes of Alberta 124 and amendments thereto and substitutions thereof.

I do hereby certify that this is a true copy of the original By-Law.

2t R. J. TATE, Sec. Treas.

NEWS ITEMS FROM KINSELLA

We are glad to report that Mrs. W. L. Ferries, who underwent a major operation in Edmonton is doing as well as can be expected. Mrs. Ferries has not been well for some time and hopes are held out for her early recovery to good health.

Word has been received here that Mrs. Thom Jones, of Edmonton, is seriously ill and has left for Vancouver for more suitable climatic conditions. Mrs. Jones together with her husband were early settlers in this district, having homesteaded two miles east of Kinsella some eighteen years ago, where they with their family made their home for a number of years, later moving to Edmonton, where Mr. Jones was for a long time orderly in one of the hospitals there. Their many friends here hope for Mrs. Jones early improvement at the coast.

Many Kinsellates are leaving for Edmonton this week to take in the Exhibition.

Four Salvation Army workers drove into town on Saturday and held a short but impressive service in front of the Red & White store. Several musical selections were rendered to a fairly large audience taking their seats on the sidewalks. They left here for Viking where they will stay over and hold services on Sunday at Quins school and Roberglen school and furnish music in the United Church at Viking at the evening service.

We are glad to report that Mrs. Fred Green is much improved from her recent attack of tonsillitis and is now able to be around again.

A very heavy rain fell here on Wednesday afternoon soaking the ground to a depth of about six inches. It is not expected that rain coming so late will materially benefit the early crops, but pastures and late crops will no doubt show improvement.

Wheat, is standing at a height of about six to ten inches and mostly all headed out and in places showing a yellow color from lack of moisture. There are a few fields in the district that with favorable conditions from now on will doubtless make twenty bushels to the acre, which is saying a lot this year. The majority of the crops are very poor and may run from five to ten bushels per acre, and are going to be hard to cut owing to the short straw. Many of the farmers were worrying about feed for stock, and this good rain will no doubt make the feed situation safe.

A dance will be held in the Diamond Willow school Friday, July 19th. There is also a dance advertised to take place at Lake Vernon school on the same evening. Lunch will be served at this dance by the committee in charge.

Three carloads of cattle were loaded at Kinsella on Saturday, July 13th by Sam Markel, buyer from Winnipeg. These cattle are being shipped east. Mr. Figgure of the Pool Room who recently underwent a serious operation in the University hospital at Edmonton is reported as doing fine and is expected home in a few weeks.

Mr. Jno H. Neale is rejoicing over the birth of a son at the Viking Hospital last week.

Born to Mr. and Mrs. J. Neale at Viking hospital a son.

Mrs. R. L. Eaton was taken to Viking hospital where she will receive treatment for rheumatism.

Mrs. Hornick will entertain the W.I. Friday, July 19th.

Mr. and Mrs. Garden and Mr. and Mrs. Kearns spent Sunday with Mr. and Mrs. Waite at Jarrow.

Mrs. James and children of Ponoka returned home Tuesday after spending the last ten days with her sister Mrs. E. C. Williams.

Messrs Gordon Trobb and Jaffee Walker went on the special train on Tuesday to Edmonton where they will attend the Exhibition.

Miss Dorothy Williams is visiting her aunt and uncle at Ponoka.

Mrs. Wachter and three daughters went to Edmonton Tuesday.

LADIES AID TEA.

A tea and Sale of Home Cooking will be held in the Fire Hall, Saturday afternoon, July 27th, afternoon and evening. Proceeds are to help defray expenses on the parsonage. All donations thankfully received. Everybody welcome.—A. L. Fluwell, Secy.

Wedding Bells

ENGER-FENTON.

On Wednesday, July 17th, in a setting of lovely summer flowers, a pretty wedding was solemnized at the residence of the bride's parents, Mr. and Mrs. James Fenton, Irma, when their third daughter, Alexis Georgina was united in marriage to Mr. Martin Enger, third son of Mr. and Mrs. O. Enger, also of Irma. The Rev. J. Geeson, of the Irma United Church, officiated.

Descending the stair in a beautiful gown of ivory crepe-back satin with European lace and a flowing tulle veil embroidered in silk held in place with a wreath of orange blossoms, the bride made a lovely picture. She was given in marriage by her father and carried a shower bouquet of American Beauty roses and lily of the Valley. The bridal chorus from Longhorn was played by Mrs. Ralph Dunlop, sister of the bride, and during the signing of the register a brother, Gordon, sang "A Perfect Love."

Miss Vera Magee was her cousin's bridesmaid and wore an ensemble of silk-crepe-gloria with white picture hat to match and carried a bouquet of sweetheart roses and sweet peas. Mr. Einer Enger, a brother, supported the groom. The little flower girls, Clara Enger, a sister of the bridegroom, and Mavis McHardy, a cousin of the bride, were dressed in white and carried pink and white peonies.

The ceremony was performed beneath a bower of streamers, wedding bells and flowers. After congratulations, a buffet luncheon was served, the bride's table centered with a lovely three tier wedding cake, the decorations carried out in streamers and flowers.

Mrs. F. W. Higginson, Miss Alma Miles, and Miss Mable Enger assisted the bride's sister in serving. The bride's gift to the bridegroom was a white gold watch chain, the bridesmaid and other attendants received suitable tokens from the bridegroom.

The wedding gifts were numerous and beautiful from friends and relatives including several substantial cheques.

The happy couple left by motor in a shower of confetti, streamers and good wishes, the bride traveling in an ensemble of grey and green chamois and celineuse with a chic sport hat to match. She wore a brown fox fur scarf, the gift of the bridegroom. After a honeymoon spent in Calgary, Banff, Medicine Hat and Waterton Lakes, Mr. and Mrs. Enger will make their home on the groom's prosperous farm in the Irma district.

Beside the relations and friends of Irma, the out of town guests were Mr. and Mrs. R. H. Dunlop, Indian Head, Sask., Miss Vera Magee, Camrose, Mr. D. H. McHardy and family of Vermilion, and Mr. Einer Enger of Heath, Alberta.

KENNEDY-HUBMAN.

A pretty wedding was held in St. Luke's Church, Wainwright, on Monday, July 15th at 9 A.M. when James Kennedy, Jr. and John Hubman were united in the holy bonds of matrimony. Rev. M. E. Murphy officiating. The witnesses were James Kennedy, cousin of the groom, and Heidi Hubman, the bride's sister. John Hubman, the father of the bride gave his daughter before the altar.

The bride was charming in a cream beaded French georgette dress and the bridesmaid was also dressed in georgette.

After the solemn blessing the register was signed and the happy couple received congratulations from their many friends from Irma.

SHOWER FOR BRIDE TO BE.

Miss Lavinia Haase daughter of Mr. and Mrs. A. Haase, Irma, was entertained a shower by her Irma friends at the home of Mrs. L. A. Hager on Wednesday afternoon, July 10th. She received many nice presents including linen and silver.

Miss Haase's marriage to Mr. Lewis Gwinn of Irma will take place July 20th. She has been a school teacher in the Wainwright-Vernon area for years, and her many friends do all join in wishing this young couple many years of happy married life.

LAWN SOCIAL.

The Irma Rebekah Lodge No. 87 I. O. O. F. are holding a lawn social at Mr. and Mrs. Martin Knudson's home on Thursday evening, July 25th. Everybody welcome.—A. L. Fluwell, Secy.

The One Hundred Percenter

Lady Astor, like Bernard Shaw, has the habit of saying startling things that make people think, says the Winnipeg Tribune. In the recent election campaign in Great Britain she struck a responsive chord in many minds when she said:

"It is the 100 per cent. American and the out-and-out Englishman I fear. I think 100 per cent. citizens ought to be locked up. They are a danger to the world."

Everybody knows what a 100 percenter, or an out-and-out, is. He is to be found in more or less substantial numbers in every country, although his favorite stamping ground is the North American continent. The 100 percenter may be distinguished by several well-known characteristics.

In the first place, he holds as a great moral principle the immortal doctrine embraced by the famous motto, "May my country be always right, but my country right or wrong." This naturally scales down into "my state (or province), my city, my ward, my party," and, not infrequently, "myself."

In essence it is placing a nation, or a locality, or a group of persons associated together for some common cause, above every ethical or moral judgment of mankind, above the sense of right or wrong.

Another sign of the 100 percenter is a steadfast belief that everything that is American, or Canadian, or English, or Italian, is right, because it is American, or Canadian, or English, or Italian. The logical consequences of such an obsession is that he champions his country's flag by dragging it in and flaunting it on every possible occasion.

The 100 percenter is not all bad, of course. He merely fails to see that patriotism is not the cause but the result of a sound and honorable national life. He is the victim of current standardization of thought which manifests itself in slogans and headlines. Not everyone would want to go as far as Lady Astor and have him locked up. Nevertheless he is a danger because his enthusiasm is rooted mainly in a mass of intolerances. And intolerance, as Lady Astor implied, is one great obstacle to civilized social progress.

In and civilized social progress has the hope for the future peace of the world. If the American, the Canadian, the Englishman, the Italian insist upon the acceptance of their particular national views, and intolerantly refuse to see any good or virtue in the views of others, what hope can there be of the nations drawing closer together?

And if the 100 per cent. doctrine is sound and right, and the 100 percenter is to have his way, what hope is there for the future of many nations of today? Take Canada as an example. If the 100 per cent. Easterner adheres rigidly to his views, declares he alone is right, but whether right or wrong, he will not budge from any position he has taken on fiscal or other questions, and the 100 per cent. Westerner adopts the same attitude, what will be the outcome of the Canadian Confederation?

Apply the same attitude of mind in matters of race, language, religion, and government in Canada, and in each of the provinces of Canada, becomes an impossibility. The 100 percenter would wreck everything if he does not have his own way.

All history proves that intolerance has been the cause of the world's greatest sorrows, the underlying cause of its bloodiest wars. Intolerance of race, intolerance of national customs, intolerance of religion, intolerance of social conditions, the 100 percenter in the ranks of employers and in trade unions, these are the real dangers in the world today as they were in the years that are past.

The 100 per cent. demagogue with a glib tongue and a reckless disregard for truth and fact by attracting the attention, playing upon the passions, prejudices and sentiment of those who are so swayed rather than guided by their intelligence, can undo the work of generations of statesmen, and render difficult and oftentimes impossible the work of the true reformer.

The man who boasts he is 100 per cent. this, or 100 per cent. that, is merely advertising the fact that he is intolerant in his views and narrow in his vision and conception of life. He may be sincere, but his sincerity is the outcome of his intolerance, and his intolerance has its foundation in ignorance and a prejudiced mind. As such he is a national danger.

To Test Air Television

Monoplane Has Been Especially Constructed To Try Out Invention

Flight tests will soon be made of television apparatus calculated by its inventor, C. Francis Jenkins, Washington physicist, to reproduce conditions as seen from an airplane, on a screen miles away.

Moving panoramas of countryside—in wartime instantaneous recording at headquarters of observations made by planes back of the enemy lines—by as broadcast by the "aerial television eye," will soon be a scientific reality, he said.

Successful experiments with the

new process have already been conducted with ground models from a fixed base, he announced, and a Stinson junior cabin monoplane had been specially constructed for practical test purposes.

Will Increase Empire's Trade

U.S. Tariff Likely To Divert Trade To British Dominions

Increased United States tariff against Canadian products will divert Canada's trade more and more to the other Dominions of the British Empire, believes Norton Francis, president of the Canterbury, New Zealand, chamber of commerce, and prominent business man, who is visiting Canada and the United States for the purpose of studying relations between the farmer and city industry on this continent.

In an interview at Winnipeg, Mr. Francis said he does not think Canada can meet the tariff situation, by further raising her own tariff scale, but should concentrate on increasing her manufacturing and inter-empire trade.

The moisture evaporated from a single white oak in a day has been estimated to be 150 gallons of water.

Can Measure Laughter

Machine Determines Whether Comedy Piece Is Success Or Failure

"John James, comedian, Lafoograph 88," may be the form of card used by entertainers in the future, for a new apparatus has been invented to register the exact "strength" of the laughter aroused by a comic piece in a theatre or concert hall. It registers the truth and nothing but the truth. The machine will presumably have a figure to denote absolute efficiency, and should a musical comedy fail to come up to scratch it will not longer be possible to suspect that the failure was due to the critics. Also the critic's work will be made easier. Instead of praising an author's wit, or discussing a comedian's qualities, it will be necessary only to say at the end: "Lafoograph 100, or 50, or 40," as the case may be. After a first night the public will have to see the registered rise and fall of the needle how it began at "titter," rose to the middle sphere of "chuckle" and "laugh," leapt to the higher "outburst" or "scream," or reached the supreme heights of "screach."

Write The Borden Co., Limited, Dept. B-43, 140 St. Paul Street, Montreal for two Baby Welfare Books.

Important Move Made

By Labor Government

Would Have Dominions Agree On Signing Of Optional Clause Of World Court Statutes

Important negotiations affecting Empire affairs, are reported to have been initiated by the new Labor Government of Great Britain. It has communicated with all the Dominions in an effort to gain agreement on the signing of the optional clause of the world court statutes, under which questions of international law would be submitted to the permanent court of international justice at the Hague.

The Labor newspaper, the Daily Herald, said also that the Labor Government has informed the Dominion governments that it proposes to resume diplomatic relations with Russia.

The world court matter requires agreement of all the Dominions, and it is expected this can be secured without much trouble. Australia, hitherto, was probably the only Dominion reluctant to sign the optional clause, and it is understood this reluctance has now been removed to a great extent. In any event, Premier Ramsay MacDonald is hopeful of being able to show complete Empire agreement on joining the world court when he visits the League Assembly at Geneva, in September.

So far as Russia is concerned, the Labor Government is already pledged to renewal of diplomatic negotiations, this being a necessary and important step towards the desired increase in British trade with the Soviet Union.

Search For Oil In Manitoba

Western Oil Fields Are Gradually Extending Eastward

The search for oil in the western provinces is gradually extending into Manitoba, and announcement is made of the formation of a syndicate of eastern capitalists to drill in the Ochre River field. The new organization, which is called the Carter Oil Syndicate, has taken over the holdings of 1,300 acres south of Ochre River.

Minard's Liniment For Earache.

Official Criticism

The Movie Manager—Good morning, ma'am. I asked you to call because I wanted your opinion on some of my features.

The New Censor—Well, to begin with, your forehead is too low, your eyes are not mates, your nose is too big and bulbous, your mouth is too large and fleshy, and you're little or no chin. Otherwise they will do very well. Is that all?

Drives Asthma Like Magic. The immediate help from Dr. J. D. Kellogg's Asthma Remedy seems like magic. Nevertheless it is only a natural remedy used in a natural way. The smoke or vapor, reaching the most remote passage of the affected tubes, brushes aside the trouble and opens a way for fresh air to enter. It is sold by dealers throughout the land.

Large Purchase Of Sheep

The first 10,000 sheep for the Manitoba Livestock Credit Company have been purchased. These consist of 7,000 Ramboulllets and 3,000 Oxford cross. Representative boards are being established at the larger country points in the province.

No man or woman should hobble painfully about because of corns when so certain a relief is at hand as Holloway's Corn Remover.

Oldest Wine In World

The oldest wine in the world is on exhibition at Speyer, Germany. It is Roman wine, recently dug up, and is estimated to be 1,600 years old. It is partly solidified, for Romans put honey in their wine.

Keep Minard's Liniment in the Medicine chest.

Famous Detective Retires

Scotland Yard Officer Was Successful In Solving Many Celebrated Cases

Retirement of Frederick Wensley, 64, as chief of the intelligence division of Scotland Yard, has brought to an end a career which began in the Limehouse district and resulted in the solution of numerous murder and other mysteries. He came to know every nook in Chinatown and the East End, the anarchists' haunts and dens of iniquity. With hawklike features, piercing eyes and bushy eyebrows, Wensley resembles Lord Reading, and really looks the part that novelists have assigned the detective. In real life his work often shamed the amateur exploits of his prototypes in fiction. Most of his murder mysteries were solved as he sat back in a big armchair in Scotland Yard Building. He would sit for hours staring at the river while studying every angle of the case, and when he left that chair, things began to happen.

Back in 1888, Wensley took part in the famous Whitechapel hunt for "Jack the Ripper," who murdered many young girls. He shared in the Sydney Street siege when a group of murderers barricaded themselves in a house and fought a battalion of Scots Guards.

One of his most famous exploits was the case of the mystery house when he found that Maltby, the tailor, had been living for weeks behind barricaded doors, alone with the bodies of the women he had killed.

One of his most astute solutions was in the murder of Madame Gerard, which he solved with only two clues to work on, a laundry mark and a piece of paper with the cryptic words "Hodie Belgium."

Most of his cases were sordid murders which were not sensational but which required much skill to solve.

Excellent For Croupy Children. When a child is suffering with croup it is a good plan to use Dr. Thomas' Electric Oil. It reduces the inflammation and loosens the phlegm giving speedy relief to the little sufferer. It is equally reliable for sore throat and chest, rheumatic pains, cuts, bruises and sprains. Dr. Thomas' Electric Oil is regarded by many thousands as an indispensable of the family medicine chest.

Britain's Oldest House

The oldest inhabited residence in the kingdom is said to be Dunvegan Castle, in the Isle of Skye. Part of it dates from the ninth century, or a couple of hundred years before the conquest of England by William the Norman.

The cheapness of Mother Grace's Worm Exterminator puts it within reach of all, and it can be got at any druggist's.

Could Quality

"I won't disguise the fact that this job is a tough proposition. The man who gets it will have some ugly customers to deal with."

"Then it will suit me down to the ground. I've had lots of experience with ugly customers."

"Where?"

"In a beauty shop."

It May Be Urgent

When your Children Cry for It

Castoria is a comfort when Baby is fretful. No sooner taken than the little one is at ease. If restless, a few drops soon bring contentment. No harm done, for Castoria is a baby remedy, meant for babies. Perfectly safe to give the youngest infant; you have the doctors' word for that. It is a vegetable product and you could use it every day. But it's in an emergency that Castoria means most. Some night when constipation must be relieved—or colic pains—or other suffering. Never be without it: some mothers keep an extra bottle, unopened, to make sure there will always be Castoria in the house. It is effective for older children, too; read the book that comes with it.

Fletcher's CASTORIA

Took Air Trip Alone

English Farmer, Sixty-Seven, Flees To Holland and Back

Richardson, 67, Britain's so-called oldest airman, made a lone flight from Norwich to Rotterdam, Holland, and back.

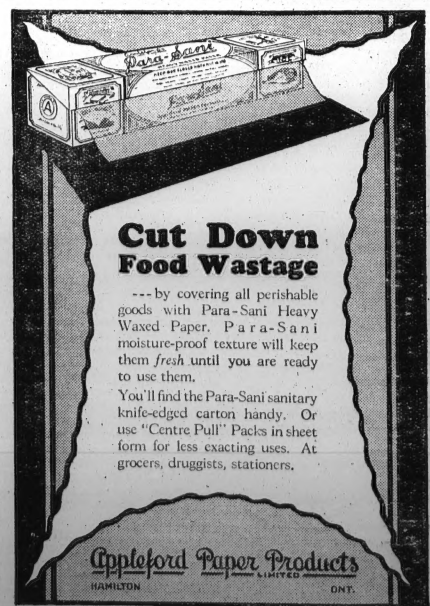

He scorned the dissuading pleas of his fellow airman, saying: "Don't talk to me about nerves! It doesn't take much courage to fly over the sea."

Richardson learned to fly two years ago because, having given up farming, he had nothing else to do."

Importance Of Tourist Trade As an Economic Factor In Canada Continues To Increase

The importance of the tourist trade as an economic factor in Canada continues to increase and is being recognized to a greater extent than ever by all classes of the community. Fresh interest has been stimulated in the subject by the recent publication of estimates by the Dominion Government placing the expenditures of tourists from other countries in this Dominion at \$200,501,000. It is predicted freely that when the totals for 1929 come to be written up they will be well in excess of the \$200,000,000 mark. The fact, moreover, that the expenditures of tourists from other countries in Canada amounted to \$225,711,000 in 1928, while those of Canadian tourists abroad amounted to \$102,215,000, thereby leaving a substantial credit balance of trade, is satisfactory, but when this worked down to a per capita basis it will be seen that Canadians spend far more in proportion abroad than do foreigners here.

For instance, the figures for the United States alone show that while American tourists spent some \$210,000,000, or about \$2.10 per capita here, Canadians spend \$75,000,000, or \$7.50 per capita, across the line. It is evident, therefore, that on a per capita basis we are not getting as large a share of the American tourist trade as we should. This will probably be corrected as the attractions of Canada become better known.

Commenting on the situation, the government statistician says that Canada's great natural assets, her picturesque scenery, the diversity of lake, forest, and river, the many large districts still remaining in their natural state, the healthful and invigorating climate, the charm of the Canadian winter and its distinctive sports, the old world lure of French Canada, attract tourists in ever-increasing numbers. The presence on our southern border of the United States, with its dense population possessing in a high degree the leisure and means to travel, the ease of communication between the two countries, the large automobile population, the relative cheapness of an automobile holiday in Canada for the average American family, and the close interlocking of business interests between the two countries result in a very large travel over the border. Canadians, too, are attracted by the larger United States cities with their theatres, museums, etc., and the more "settled" scenery, while large numbers of well-to-do Canadians visit United States winter playgrounds in the south.

That Canadians realize the economic importance of the trade is evidenced by the large sums spent on highway construction and advertising, and by the good accommodation provided by hotels, tourist homes and camps. In addition to the direct value of the expenditure of tourists, there follows the wider diffusion of knowledge of Canada's resources and increasing investment in them.

At the same time it is evident that many Canadians do not realize the beauties of their own country. How many people in Ontario, for instance, realize the beauties of the lower St. Lawrence and the Maritime Provinces, where they can enjoy not only entrancing natural scenery but also the salt sea breezes from the Gulf of St. Lawrence or the Atlantic. At the same time the people who live in those regions know little or nothing of the delights of Muskoka or Timagami, or the Georgian Bay, while both are largely ignorant of the pleasure which may be had in the Rockies or at the Pacific coast, or at the pretty resorts in the Prairie Provinces. A greater realization

of the pleasures that are to be had at home will not only help to keep Canadian money here but enable Canadians to place before citizens of other lands the joys of a stay of shorter or greater length in the pleasure grounds of the great Dominion. In other words, many Canadians do not know their own country well enough. Monetary Times.

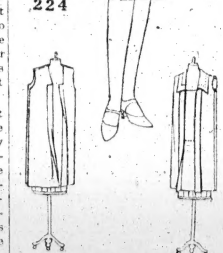

B.C. Needs Another Experimental Farm

Matter Was Brought Up In House
By J. A. Fraser

The need for another experimental farm in the interior of British Columbia, south of the main line of the Grand Trunk Pacific, an area which produced for market every year 20,000 head of cattle from herds which numbered more than 100,000 head, was stressed by J. A. Fraser, Cariboo, in the House of Commons recently. British Columbia already had four experimental farms, and Mr. Fraser stated that it was not fair to give one province much more than another to assist an industry. He would, however, have conditions in British Columbia investigated later in the present year. There are twenty-three "full-fledged" experimental farms scattered throughout Canada. They were located as follows: British Columbia, 1; Alberta, 2; Saskatchewan, 4; Manitoba, 2; Ontario, 2; Quebec, 5; Prince Edward Island, 1; Nova Scotia, 2; and New Brunswick, 1.

Winnipeg Newspaper Union
Fashion

LOOKING SLENDER

An unusual one-piece dress, cleverly designed to make its wearer appear more slender, with panel front perforated to be cut apart to use contrasting fabrics or colours, as illustrated. A narrow belt attached at either side of front panel, holds in fullness through the waistline and ties in youthful bow at back. The shaped collar is smart, finishing the flattering square neckline. Style No. 224 is designed in sizes 36, 38, 40, 42, 44, 46 and 48 inches bust measure, and if made of one material, only takes 3 1/2 yards of 40-inch. Printed and plain silk crepe, crepe satin, using the two surfaces, printed and plain linen, two tones in flat silk crepe or canton-faille crepe are unusually pleasing combinations. Price 25 cents in stamps or coin (coin preferred).

Grades For Strawberries

Fruit Commissioner Has Worked
Out Recommended Grades
For Berries

The marketing of all kinds of produce is materially helped when properly graded. The fruit commissioner of the Department of Agriculture, at Ottawa, has offered recommended grades for strawberries. First of all, it is recommended that the fruit be divided into: No. 1, No. 1 canning, and No. 1 for jam. The specifications for No. 1 strawberries call for fruit with the calyx and a short stem attached, which are well formed, of good colour, firm, but not over-ripe, free from surface moisture, bruises, bird pecks, mould, and from damage caused by sand, diseases or other means. The minimum diameter for this grade is three-quarters of an inch, measured from side to side.

No. 1 canning strawberries are recommended to consist of field run fruit, clean, sound, ripe, firm, and of uniform size, of good colour and free from malformed or monkey-faced berries.

The specifications for No. 1 jam strawberries call for field run fruit, clean, ripe, and of good colour, free from malformed or monkey-faced berries. In order to allow for variations in extent to careful commercial grading and handling, an allowance of five per cent under the prescribed size and five per cent, by volume may fall below the remaining requirements of the grade.

Farm Relief In Canada

Railroads Are Doing Their Share In
Practical Way

Canadian railways have again at rates that would bankrupt American roads. From Devil's Lake, N.D., to Duluth, a distance of 384 miles, the rate is 15.5 cents. From Lyndell, Mo., to Fort William, a distance of 389 miles, the rate is 14 cents. The saving is over 20 per cent.

From Estuary, Sask., to Fort William the rate is 24 cents. The distance is 1,036 miles. From Roseman, Minn., to Duluth, the rate is 14.2 cents. The distance is 1,033 miles. The Canadian farmer saves 40 per cent. Similar savings are in effect on the westerly route.

Canadian railroads are giving their farm customers practical farm relief.

Adopted By All Provinces

The province of Alberta has adopted Old Age Pensions, the funds for which are provided by co-operation between the Federal and Provincial Governments. The scheme has now been adopted by all Canadian provinces from the Quebec boundary westward.

Canadians Talking To Air

In 1928 there were 6,000 passengers carried in Canada by air. In 1929 the number was 47,000. Over a quarter of a million miles of territory has been mapped by Canadian airmen.

Kiln burned brick made by the Babylonians 6,000 years ago still exist.

Heads New Organization

C. W. Bowman, President of the Colonization Finance Corporation of Canada Ltd., and Chairman of the Mutual Life Assurance Company, Waterloo, Ontario. The Colonization Finance Corporation is a new organization consisting of certain large Canadian land-owning companies who have allied themselves with the Canada Colonization Association, to assist and expedite sound settlement measures.

British Columbia Show Herds

Three Different Breeds Of Dairy
Cattle For Western Fairs

According to present arrangements British Columbia will have three show herds, representing three different breeds of dairy cattle of the people's class "A" fair, circuit this year. David Spencer, Ltd., will for the third successive season send out a Jersey herd, while the Consolidated Mining and Smelting Company of Trail, will attempt to repeat last year's successes with Ayrshires. British Columbia Guernseys will for the second time be competitors for honours with the head of Alister Forbes Goble Hill, Vancouver Island, and this year will include Regina Fair, which has added Guernsey classifications to its prize list.

Boys' and Girls' Swine Clubs

C.P.R. Again Offering Four Cops For
Competition In Western
Provinces

J. M. McKee, general agricultural agent of the Canadian Pacific Railway in Winnipeg, Man., announces the intention of the company to again offer four cups to the Boys' and Girls' Swine Clubs located along the railway's lines in each of the four western provinces. In addition the winning teams in each province will be taken to Toronto, to the Royal Winter Fair as guests of the railway.

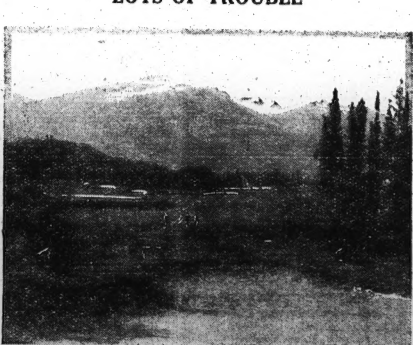

"Is that a popular song he is singing?"

"It was before he began to sing."

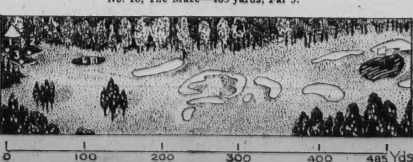

At the end of the eighteenth century men were using cast iron to build bridges.

God help the middle class. The poor can beg and the rich can steal.

LOTS OF TROUBLE

No. 10, The Maze—485 yards, Par 5.

They've got to be straight to negotiate the tenth hole of the Jasper Park Lodge Golf Course, Jasper National Park, Alberta, over which the Canadian and Western Canada Amateur Championships will be played Aug. 19-24, this summer. Immediately in front of the tee is a water-hole and then it's a case of from bunker to bunker. The hole from No. 1 (championship) tee is seen at the top and below is the hole in detail with yardages to scale underneath the panel.

Inter-Imperial Trade Idea Meets With Heartiest Response Throughout British Empire

Potatoes Good Feed For Dairy Cattle

Value Nearly Equals Corn Silage
Pound For Pound

According to A. E. Perkins, of the Ohio Agricultural Experiment station, potatoes have a feed value nearly equal pound for pound to corn silage. This is useful information, as it gives the farmer a market for his culls and any others not finding a market.

The dry-matter content of potatoes is on the average 21 per cent, as compared to 28 per cent, for silage. But as the dry-matter of the potato is more digestible than that of silage the total amount of digestible ingredients is the same. The dry-matter of potatoes is mostly starch although it also contains about 1 per cent digestible protein.

The big cry against potatoes is that they give an off or potato flavor to the milk. But this is not due to the potatoes that the cow has eaten, but to the potato odor around the stable. Therefore if the cows are not fed until after milking, and care is taken to see that there is no potato odor lingering around the barn during milking, the cream, milk and butter should not be tainted. No ordinary treatment such as pasteurization will remove potato flavor from the milk once it is absorbed.

The potatoes are fed raw at the rate of 20 to 30 pounds daily in place of silage. Potatoes must be cut or sliced in order to prevent choking. Care must be taken to see that no green potatoes or potato sprouts are fed as they contain a deadly poison called solanine.

Danger From Lightning

One-Tenth Of Casualties Said To
Occur In Rural Districts

The United States Bureau of Standards, which has been making an investigation of the havoc of lightning, has found that 500 persons are killed annually by lightning in the United States and upwards of 1,300 injured, and that one-tenth of the casualties occur in rural districts. The board has drawn up the following code of safeguards:

(A)—Do not go out of doors or remain out during thunderstorms unless it is necessary. Stay inside of a building where it is dry, preferably away from fireplaces, stoves and other metal objects.

(B)—If there is choice of shelter, choose in the following order: 1. Large metal or metal-frame buildings; 2. dwellings or other buildings which are protected against lightning; 3. large unprotected buildings; 4. small unprotected buildings.

(C)—If remaining out of doors is unavoidable, keep away from: 1. Sudden sheds and shelter if in an exposed location; 2. isolated trees; 3. wire fences; 4. hill tops and wide open spaces.

(D)—Seek shelter in dense woods, a grove of trees, a cave, a depression in the ground, a deep valley or canyon.

A Heavy Loss

The star actresses of the touring company rushed into the manager's room.

"My jewels," she sobbed. "They're lost—or perhaps stolen."

"I can't find them anywhere."

"Which jewels?" asked the manager, curiously.

"The ones I wear in the second act," the actress explained, brokenly. "The diamond tatra, the emerald bracelet, and the shagreen anklet."

"Well, Miss Smith," said the manager, severely, "I hold you responsible for those articles. I'm sorry, but I'll have to dock you seven-and-sixpence on Friday."

"The Bone, 'Anything I say goes!'"

"The Bone, 'Well, say your name once or twice!'"

Making a Fishermen's Paradise

Maligne Lake, the largest glacial fed lake in the world, situated in Jasper National Park, Alberta, last year was stocked, as a government experiment, with fingerlings hatched from some 250,000 imported trout eggs. This year the fish are from five to six inches long, are thriving on insects and are quite at home in their new habitation. This spring 250,000 more fingerlings were added to last year's batch.

At three cents a mile a journey to the sun would cost \$2,790,000.

The Atlantic coast line of the U.S. is 5,560 miles long.

The blood absorbs about two pounds of oxygen daily.

The proposals of James A. Robb, Canadian Finance Minister, in connection with inter-imperial trade and the suggestion of an imperial conference on Empire trade and tariffs continue to be discussed with the liveliest interest throughout the British Empire.

British newspapers are appealing to the government to respond heartily to the Canadian suggestions, as it gives the farmer a market for his culls and any others not finding a market.

The Financial Times, in a long editorial, enthusiastically supports Mr. Robb's ideas.

"Meanwhile," continues the Times, "the present provides an excellent opportunity for co-operation in industrial development among the dominions themselves. With her magnificent and seemingly boundless resources and unutilized facilities for the generation of cheap electric power, Canada offers probably the most attractive field in the world today, for British capital and enterprise."

The Times calls attention to Canada's development as a manufacturing country and appeals for the co-operation of British labor and capital to assist in this development.

Mr. Robb's proposals have called attention publicly to Canada's important part in the trade of the empire. In this connection many Canadians now in London are deploring the lack of publicity which Canada receives in British labor and capital to assist in this development. The leading railroads extensively advertise the benefits of travel in Canada and settlement there, but these visiting Canadian would like to see Canadian products advertised by the Dominion government in the same way that Australia, New Zealand and South African products are advertised throughout the country by the respective governments of those countries.

They see no reason why Canadian apples should not have the same publicity as Australian apples, which in the press and on boardings confront the Englishman at every turn.

Faculty For Languages

Leeds Railway Worker Has Mastered
Twenty-Six Languages

Mr. Harry Robinson, a Leeds railway worker, is master of twenty-two languages. He can speak English, French, Italian, Russian, German, Spanish, and Danish. He can read and write Greek, Dutch, Persian, Esperanto, Swedish, Portuguese, Bulgarian, Chinese, Hindustani, Arabic, Turkish, Latin, Norwegian, Russian, Serbian, and Japanese. Previous to the war he knew only English and Latin, then he found a French novel in a railway carriage, and mastered it with the aid of a dictionary. All his study has been done in his spare time since then.

Hard Luck Pursues Her

In Birmingham, England, according to "Time, the News Magazine," Madge Guener, governess, complained last week that her first fiancé, a war-time officer, was killed by a rifle grenade; her second, an aviator, fell to death three days before the wedding; her third, an engineer, was struck by a crane and died; her fourth died two days before the marriage.

Beat Him To It

"The bus was crossing Westminster Bridge."

"Say, conductor," said the American, "what do you call this stream here?"

Hastily the conductor looked over the side.

"Damn it!" he said. "The radiator must have sprung a leak again."

The Bone, 'Anything I say goes!'"

"The Bone, 'Well, say your name once or twice!'"

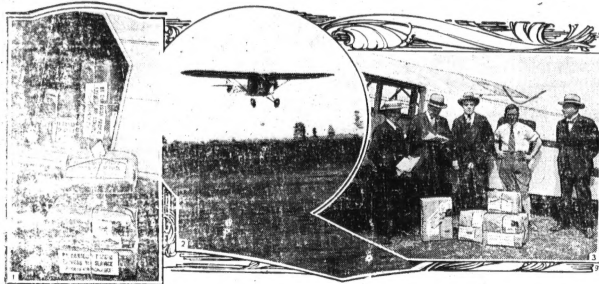

"How are things with you?"

"Couldn't be better. My wife has eloped, my mother-in-law is dying, and I have just won the big lottery."

—Moustique, Charolier.

LONDON TO LONDON BY AIR

(1) Packages of fair express, especially labelled, at the door of the cargo compartment in the express airplane.
(2) The single-motor Fairchild cabin-monoplane landing at the St. Hubert air-field, outside Montreal, after the flight from Rimouski.
(3) Canadian Pacific Express and customs officials at St. Hubert superintend the transfer from plane to plane.

Less than seven days after leaving the shipper in London, England, four packages of merchandise totalling forty two pounds in weight were recently delivered to the consignee in London, Ontario. This achievement was effected by the Canadian Pacific Express in its regular air express service maintained in connection with the trans-Atlantic liners entering and leaving the St. Lawrence.

In the forenoon on Saturday the packages left London and were placed aboard the "Empress of Australia" sailing from Southampton at noon. The following Friday they were trans-shipped from the

vessel to a plane at Rimouski and speeded towards Montreal. Less than three hours afterwards at the St. Hubert airfield outside of Montreal the express was transferred to another machine and carried on to Toronto. Arriving here in the evening, seven hours after leaving Rimouski the packages were picked up by another airplane at the Leaside field and taken to London.

The Canadian Pacific are pioneers in air express in Canada, having service under a special tariff in connection with incoming and outgoing trans-Atlantic liners in the St. Lawrence River.

Not only is express to and from Europe greatly expedited by this arrangement, but domestic express shipments make constant use of the bi-weekly service between Ottawa and Montreal, Toronto and Montreal, and down the St. Lawrence to Rimouski, that thus serves two purposes. Express moving east or west between these points may be greatly speeded in delivery in this manner and put considerably ahead of ordinary express matter unaided by this auxiliary. Merchants have made use of the Canadian Pacific Express Air Service to ship articles of every description, from flowers to motion picture film.

LUSCAR BAND 1ST
IN BAND CONTEST

(From Viking News)

The Viking band took part in the amateur band contest held at Edmonton on Monday in connection with the Edmonton Exhibition. Ten bands from various parts of the province competed. The Luscar Colliers band, winners of last year's contest, were again winners this year, with Stettler second, High River third, and Camrose fourth. All the competing bands had places in the big parade Monday noon. While the local boys didn't win any prize in the contest they feel that the trip was well worth while and received much good from partaking in it.

Commenting on the performances of the different bands, Captain T. R. James stated that he was agreeably surprised with the excellent quality of the performances put up by the different bands, and especially by the younger ones.

"The quality of the playing was excellent, and while some bands suffered from the lack of instrumentation all gave evidence of having a thorough foundation for the building up of really fine playing aggregations."

"It is a real pleasure to note the gradual growth of bands throughout western Canada, and I can safely say, after adjudicating at both Edmonton and Calgary, that the province of Alberta is leading in western Canada, both in number of bands and the quality of the musicians."

"The ground work of all bands is excellent, and I would ask those bands which were not fortunate to get into the major awards, to persevere with their work, as they have been started along right lines and will certainly make a name for themselves in the near future, stated Captain James."

Stanford H. Espedal and his school boy acrobats gave a performance at the exhibition grounds last Saturday evening. On account of other attractions at the time of the performance, there was not a very large crowd present. However, the school boys have been trained to do quite a few tumbling tricks, handstands, and other acrobatic stunts, by their teacher, Mr. Espedal, who is himself an acrobat of more than local fame. They are making their way to Hollywood and back by giving performances as they go along. The party hails from a small school district near Czar, Alberta.

The Jolly Sparks, a new organized dance orchestra, gave their first dance in Recreation Hall last Wednesday evening. They made a very creditable showing and the music was thoroughly enjoyed. The personnel is: T. H. Metcalf, piano, Chan Collins, violin, Cyril Roach, sax, trombone and trumpet, Geo. Armstrong, banjo, and Evan Jones drums and traps. They will play for another dance on Wednesday of this week.

Mrs. H. M. Hilliker met with a severe accident while at Banff and is now receiving medical aid at the Banff hospital. She was climbing a mountain when she slipped and fell, breaking her wrist and sustaining other injuries. She is reported to be getting along quite favorably.

Mrs. Thos. Belle, of Leduc, Mr. and Mrs. E. Eccles and baby Henri, motored from Edmonton last Saturday and will spend two weeks at the home of Mr. and Mrs. Brissard, on their way to Banff and Vancouver.

Mr. Davis, of Armour & Swift's, Chicago, and Mr. F. W. Wells, of Swift's, Edmonton, were business visitors at the local creamery last Wednesday.

R. H. McEwen, of Calgary, is the guest at the home of Mrs. M. Harris, south of town. Mr. McEwen will be remembered as having been accountant at the Bank of Montreal here about seven years ago.

Mr. and Mrs. W. H. Collier and children are enjoying a holiday tour to Banff and over the Windermere trail.

the waiter asked: "Is your knife dull,
sir?" "No," replied the barber, "I
strapped it on the steak."

Ski Championships for Banff

Top left, Kay Harrison, Queen of the Carnival. The inset proves that Banff Winter is not all shivers.
Below, en-route to Lake Louise, pictured at the right.

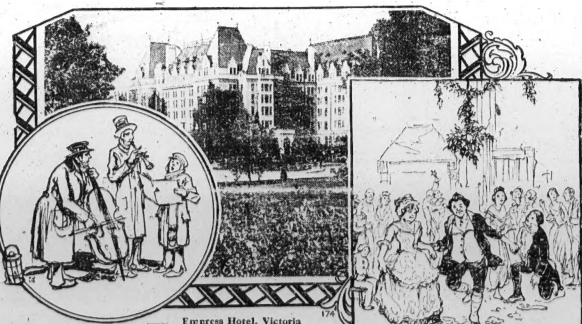

Announcement that the Western Ski Championships of Canada would be held at Banff during the Carnival Week February 2-9 is greeted with enthusiasm in practically every corner of the continent. Skiing has always been a feature of the Carnival, but this season, world champions will gather there and present an exhibition which in itself would be worth travelling a thousand miles to see.

The Banff Ski hill is undergoing improvements at the present time to allow for longer and more spectacular jumps and a cabin is being erected on the top of Stony Squaw Mountain by the Banff Ski Club which is also preparing several runs suitable for beginners as for experts. Last year a favourite cross country run was to Lake Louise, part of which was recompensed as automobile tow. That this is a

worthwhile run may be gathered from the photographs above.

But the skiing is only one side of the Carnival life. There are the dogs and the derby, the ice and the skating, the toboggans and sleighs, the dances and fancy dress balls, curling and hockey, a properly organized sports program and a general atmosphere of spontaneity, gaiety and fun. W. A. Brewster is chairman of the Carnival, George Hunter is secretary and the Queen—the Queen of Banff Winter Carnival February 1929—is Kay Harrison of Vancouver. Miss Harrison's might easily have been a crown of beauty and popularity, but it was also her prowess as an all-round sportswoman which gave her the title. Hers will be a very merry court and it will embrace all those whose pleasure takes them to Banff during the period of her sovereignty.

Victoria Scene of Yuletide Festival

Empress Hotel, Victoria

"Who does not love the very name of 'Christmas', asks Dickens in 'The Christmas Carol' knowing well enough that there is no such person, and that if there were his punishment would probably be nothing less horrible than that which proved so effective in the case of the unpleasant Mr. Scrooge. And where, one may ask, is the proper Christmas spirit more truly observable and more thoroughly enjoyed than in England. Back in the dim middle ages Christmas was an English institution and it came down the centuries losing nothing of its charm although customs of celebration changed a little now and then as time went by. But Christmas remained English and is to-day as English as ever wherever English people are gathered."

Outside the British Isles there is no place so English as Victoria. The climate is English, better still its scenery is English, and best of all, its people are English. Great holly bushes "with red berries" grow in profusion, and English ivy shrouds the walls of mansion and cottage—what better setting for English revels?

Victoria is this year going to celebrate Christmas in right good English fashion. Old customs,

old carols, old music—a Christmas festival that will pull at the heart-strings of English people no matter how many years or generations they have been away from "Home". The celebration will last from Christmas to "Twelfth Night" and will center around the Empress Hotel as one of the musical and historical festivals that have been organized by the Canadian Pacific Railway.

Among the features of the Festival will be a presentation of "The Chester Mysteries", a nativity play that had its first performance at Chester Abbey, Christmas, 1328, just 600 years ago, when Edward III was on the throne, and about twenty-five years before the battle of Cressy. Christmas customs down through the ages to the time of Dickens will be observed in the costumes of their period and there will be a Christmas play based on Mr. Pickwick's famous Christmas Frolic at "Dingley Dell Farm". The celebration will wind up with a fancy dress ball, and as Victoria is Canada's most popular winter resort the event will be attended by people from all parts of this country and the western States.

CHANGES CORPORATE NAME

The world famous old concern, the J. I. Case Threshing Machine Company, Inc., of Racine, Wisconsin, has just announced a change in its corporate name. Henceforth, the organization will be officially known as the J. I. Case Co., Inc. There will be no change made in the personnel or established policies of the institution. Recently Case acquired all outstanding rights to the use of the names "Case" and "J. I. Case" on plows, harrows and certain other farm tools, and now has the exclusive right to the use of the names "J. I. Case" and "Case" on all farm machinery and implements. Now there is only one Case organization, and that is the J. I. Case Co., Inc., of Racine, Wisconsin — formerly called the J. I. Case Threshing Machine Company. This change in name was deemed necessary to the fact that the Company has outgrown the name given it a great many years ago, when its principal product was threshing machines. From the very beginning, the line of products steadily expanded, until now it includes a full line of farm operating equipment, so the words "Threshing Machine" in its corporate name no longer indicates adequate the classes of product it manufactures and sells.

The most recent expansion took place during the past year when Case acquired the implement business and factories of the Emerson-Brantingham Company of Rockford, Illinois. This brings under the Case banner one of the oldest and most favorably known lines of farm tillage seeding, haying and harvesting machines. For nearly a century, Case threshing equipment has held a position of outstanding leadership. Since the year 1842, when Jerome Imman Case laid the foundation of the giant manufacturing concern which proudly bears his name, the Company has always been a pioneer. The Case organization pioneered the development of farm or steam traction engines. They gave motive power to the gas engine by designing and building in the year 1892 the first gas tractor of which there is any record. This company also built tractors as early as 1913 that met with instant success because they embodied most of the practical features found in the tractors so very popular all over the country today. Case was the first to pioneer the change from wood to steel in building threshers, and fully developed this type years before other manufacturers did so.

Case was the first company in the industry to improve farm machinery by making extensive use of light, strong steel stampings and forgings in place of heavy cast iron parts. Likewise, Case was the first to adopt adjustable fitted bearings lined with alloy metal in the place of rough metal. It also was one of the pioneers in the introduction of the miracle machine of the modern harvest, the Case Combine.

AGRICULTURAL STATISTICS

Statistics are often considered dry reading and of little interest by many of the general public. An awakener of interest, however, has recently been apparent, particularly on the part of farmers, not only in the West but also in Eastern Canada. More than ever are the farmers appreciating the necessity of having reliable reports on the current agricultural situation in Canada, particularly as a clue to what is likely to happen to prices and marketings in the near future. Official reports of this kind are, of course, prepared by the Federal and

Provincial Governments. At some time or other, everybody has wondered how the Government arrives at the conclusions contained in these reports. In the case of crop and livestock statistics, an annual survey is made. This is carried on by the voluntary aid of the farmers themselves. Just now the Bureau of Statistics of the Dominion Government is engaged in closing up arrangements for the gathering of information on which the crop reports and farm statistics for the current year will be based.

Whether or not such information is accurate and complete depends on how many farmers report and how fully they answer the questions submitted. It is also a fact that if full and complete information is supplied, the official report will give the farmer a fairly accurate picture of the trend of affairs. Every farmer should supply the Government with information showing areas seeded to different crops, numbers of live stock kept and other information that is asked for, so that a complete official report of agricultural conditions can be issued. Such individual reports are of course held in the strictest confidence; only the combined totals and trends are given out.

VIKING

The Poplar Hill U.F.A. local will hold a Community Picnic at Sorensen's Beach, afternoon of July 21st, Sunday. Coffee for all. The Salvation Army charioters were here over the week-end. They held forth on Main street on Saturday evening before a large crowd. On Sunday they assisted at the services at Quinte, Rutherglen and Viking United Church. The salvation army makes a yearly visit to the points where they have no regular representation.

T. O. Gilbert, of Minneapolis, Minnesota, president of the Supreme Lodge Sons of Norway, who is paying an official visit to the Canadian Lodges of the order, will visit the Viking Lodge, Thursday evening, July 18th. He is accompanied by Mrs. Gilbert, and they will be the guests of Mr. and Mrs. T. T. Berg while here.

Mr. and Mrs. C. A. Dupre, accompanied by Miss Gladys Reishus, are spending the week in the city.

Mr. and Mrs. J. J. Poole and daughter Olive were visitors in Edmonton on Tuesday.

We understand that the Viking hall team has entered in the Camrose tournament again this year.

Thos. G. Dark, Edmonton Eyesight Specialist and Licensed Optometrist will be at Viking Drug Store on Monday, July 29th from 3 to 6 P.M. 2t Mr. and Mrs. Steve Jones, and daughter Miss Dorothy, and Mr. and Mrs. Lee Harvey are having an outing at Cold Lake this week.

A. J. Reishus, manager of an elevator at Marwayne, has been enjoying a vacation at his home here.

Mr. and Mrs. Metcalf, Chan Collins and Howard Armstrong took in the fair at Edmonton on Tuesday.

Mr. and Mrs. McAtthey, Miss Helen and son Jack, have been spending a few days in Edmonton. Born to Mr. and Mrs. Evan Jones, a boy, at the local hospital, on Sunday, July 14th.

Monte Hoskins is a fair visitor in Edmonton this week.

Dr. and Mrs. Little and children are holidaying at Sylvan Lake.

A. J. McGuire was a visitor in Edmonton on Tuesday.

Mrs. F. Miller is a visitor in Edmonton this week.

Harry and Douglas Haydon accompanied Rev. Bee to Edmonton this week to see the sights.

The Wastebasket

"Honestly now, you would never think my car was bought second-hand would you?" said a local citizen to a friend. "Why no," was the reply, "I thought you made it yourself."

"Will you share my lot?" asked a local fellow who proposed to a Ryley girl the other night. "If you've got a house on it; I'm not crazy about living in a tent," she replied.

There has been a lot of talk about what is the longest word in the English language. A local parent says that after noticing the antics of his daughter and her regular fellow that he is of the opinion that the longest word is "goodnight."

"Are you fond of indoor sports?" asked a local fellow of his Jarrow girl. "Yes, if they don't stay too late," she replied.

"Are you sure the train will stop when you pull that rope?" asked a nervous old lady of the conductor when she boarded the train here the other day. "Absolutely," he replied, "the other end is tied around the engineer's neck."

ELKS PICNIC SUNDAY, JULY 21st

The Elks picnic is being held at Mott Lake, Buffalo Park, Wainwright, on Sunday, July 21st. A program has been arranged. The Wainwright Elks Lodge will furnish coffee, milk and sugar. Bring your own lunch.

ANNOUNCE REDUCTION IN AMUSEMENT TAX

The existing tax on low priced tickets of admission to such places of amusement and entertainment as moving picture houses, chautauquas, etc. has been cancelled by a recent order in council of the Alberta Government. Admission prices not exceeding 25c will hereafter be exempt from tax, the only exception being places for public dancing. No change will be made in the case of tickets for which more than 25c is charged.

Here and There

1914
An average of 1333 cars per day have been loaded with grain by the C.P.R. since the middle of September, said J. G. Sutherland, head of the transportation department at Winnipeg. This means about 24 million bushels moved daily—a record never before approached.

The International Dog Sled Derby that is one of the outstanding attractions of the winter sport season at Quebec City will take place from February 21 to 23. It has been announced. This course is 120 miles in length and famous "mushers" from all parts of the country compete.

President Calles of Mexico, has purchased 175 prize British Columbia hens for stocking his farm near Mexico City. He paid \$5,550 cash for these birds, all of which have a record of more than 300 eggs a year and all of which are White Leghorns. The purchase was made through two agents of the president who came up from Mexico for this purpose.

An ingenious machine for the repair and maintenance of railroad tracks has been experimented with for some time by the Canadian Pacific Railway. It is reported. A gasoline motor generates power for an electric arc welder and a grinder. These in turn build up and smooth out worn sections of rail near joints. It can operate anywhere on the line, quite apart from any outside source of electric power.

Shipping beer by tank cars is an innovation alike for the brewing industry and railroading. A London brewery is now using insulated and refrigerated glass lined tanks containing 4,800 gallons to ship beer to their Montreal bottling plant. The tanks are the same as those used to ship milk in bulk, but have the addition of a safety valve to release pressure in excess of twelve pounds that may be generated in transit.

Maple products have almost equalled Canadian apples in popularity as souvenir presents from Canadians to their friends in the old country, states J. R. Martin, manager of the foreign department of the Canadian Pacific Express. Christmas shipments, not under way at an early date this season, will be the first of the express companies to express Christmas presents early having a marked effect.

Another story of a bull moose attacking a man comes from Banff, Alberta, where the Mercury reports. "One of our local prospectors was tramping through the forest on the edge of the Banff area, he looked forward and saw a bull moose coming rapidly towards him. He took to the timber pronto, and afterwards discovered that Mr. Moose had established his herd of three or four cows in a secluded spot near and was not going to permit the approach of any strangers."

A HARD PAR 4

No. 8, Tekarra's Cut—430 yards, Par 4.

Many hopes for a fine score have been wrecked by hole No. 8 of the Jasper Park Lodge Golf Course, Jasper National Park, Alberta, over which the Canadian amateur championship of the R.C.G.A. will be played from August 19th to 24th this summer. It is a dog-leg with a high knoll to be negotiated before the second shot can be placed on a sloping green that is lightning fast and guarded by a deep grass covered ditch. The contour of this green is such that an error of a fraction of an inch in putting means disaster.

Co-incident with the Canadian Amateur the Western Canada Amateur will be played over the Jasper Park Lodge Course, and this will provide plenty of competition for those whose high handicaps automatically keep them out of the Dominion event.

The upper photograph shows the fairway just below the elevated tee. Below is a sketch to scale showing the hole in detail. Play in the tournament will take place from No. 1 tee.

WORLD HAPPENINGS
BRIEFLY TOLD

Sir Beilley Alden, British ambassador to Brazil since 1925, died suddenly in a London hotel, aged 60 years.

Sheep from the famous flocks of His Majesty King George are being imported on Vancouver Island and will be featured in the Rocky Hills.

Two cargoes of Canadian grain have left Vancouver for Vladivostok. This is the first movement of this commodity to a western Siberian port in years. It is expected that a further cargo will go forward shortly.

London morning papers say the much-talked-of agreement between British and German film groups had been signed, with involved capital amounting to approximately 10 million pounds sterling, or \$20,000,000.

Marius Follon, one of the most noted military test pilots in France, was killed instantly when his plane crashed because of a broken wing. His parachute failed him after the pilot had leaped from the plane.

A children's game, which over turned and landed in the main gallery of the Hamburg-Amerikan line "Deutschland" incurred a striking fault to an uneventful Atlantic crossing for 380 passengers.

Expanding trade in the New West Indian area is seen in the recent shipment of a large consignment of rope from the factory at New West Indian and came from the Fraser Valley to the British West Indies market.

A Chinese-British agreement has been signed providing for the training of Chinese naval cadets in Great Britain and to the furnishing to the Chinese government of a British naval mission in development of the Chinese army.

Bidman's Limited, of Vernon, B.C., has started construction of its new dehydrating plant and it is expected that the factory will be completed in time to handle the coming season's crop. Machinery is already moving in.

A shipment of purchased cattle consisting of 25 head of Guernseys purchased in Wisconsin and Illinois, by D. V. Bunkle, of Regina, have been placed on the Pilot Butte stock farms near Regina. The shipment is valued at \$10,000.

Has Gained Popularity

Essay Contest Teaching Toledo School Children Facts About Canada

A Canadian essay contest in the Toledo, Ohio, schools, sponsored by Edmund G. Odette, M.P., for East Essex, has gained such popularity in that city that one of the newspapers now is carrying a daily feature entitled "Facts About Canada."

"Canada," one of the Toledo papers pointed out, "is a nation of home-owners in the farming district, 78 per cent. of the people owning their own homes."

Other facts listed from day to day, deal with Canada's natural resources, its hydro power, its fishing and its industrial enterprises. The competition among the Toledo school children was started last fall when Mr. Odette, addressing the North Toledo Improvement association, offered to pay the expenses of a trip to Ottawa for the author of the best essay on "Canada."

The proposal received such a favorable impression in Toledo, that the chamber of commerce there offered to do likewise for a second student. The object of the essay contest and the trip, is to promote a better understanding between the people of the adjoining countries.

If all oyster eggs hatched and survived, in five generations their shells would make a pile twice the size of the earth.

THE FOUNDING FILM.

Producer: "Jump!"
Actor: "But I see no hat!"
Producer: "Of course, not. This is a sound film. We have to reproduce your thud on the pavement!"

A Pleading Incident

Deaf and Dumb Children Are Entertained To A Lecture

This pleasing and pathetic little incident took place in Montreal recently at the largest health exhibit ever shown in Canada, when the Canadian Social Hygiene Council assisted the Montreal Federation of French Health Agencies in a financial drive.

Morning, afternoon, and evening health lectures were given, thousands of school children being carried free on the street cars. And on day they brought all the little deaf and dumb children in Montreal.

They gathered that silent company in the big lecture hall, and placed them in little groups of fifteen or so, around lady teachers. Each teacher faced the lecturer, and the children solemnly looked at their teachers. And then the lecturer began to speak to the children, while they stood, unhearing, and watched their teachers.

He spoke only a few sentences, and stopped. And all the teachers began to move their fingers, framing, before the lecture. The children's eyes followed eagerly as they understood the words that were being relayed to them, their own native language that they could not understand until it was translated into motion.

Children are notably fidelity at lectures, but not so their congeners. To see how they enjoyed every minute of it was enough to bring tears to many eyes that watched them. They were being brought into close touch with the world of their voiced playmates; their partial isolation was being temporarily broken down. To each of them, that lecture was a big event.

Recipes For This Week

(By Betty Barony)

GOLDEN ORANGE FROSTING

Grated 1 orange.
2 tablespoons orange juice.
1 teaspoon lemon juice.
Yolk of 1 egg.
Confectioners' sugar.

Mix grated orange and with fruit juices and let stand 45 minutes. Strain into beaten egg yolks and add enough sifted confectioners' sugar to spread.

HAMBURGER EN CASSEROLE

2 lbs. of round steak ground or
2 lbs. of lean hamburger.
2 large onions.
2 large peppers, green or red.
1 large lemon.
1 8 oz. bottle tomato catsup.
1 lb. or more of bacon according to taste.
Salt and pepper.

Butter your casserole dish or pan and lay about 1 1/2 inches of hamburger in bottom.

1 layer of one onion thinly sliced.
1 layer of one pepper thinly sliced.
Juice of half lemon.

Salt and pepper to taste.
Repeat until the meat is used, making the second layer of meat about one inch thick, this will give enough hamburger left for about 1/2 inch thick on very top. Pour a whole bottle (8 oz.) of catsup over and strips of bacon. Bake slowly or in modern oven for one hour and a quarter.

The proposal received such a favorable impression in Toledo, that the chamber of commerce there offered to do likewise for a second student. The object of the essay contest and the trip, is to promote a better understanding between the people of the adjoining countries.

Early oil wells at Baku were scooped out by hand.

COL. CHAS. LINDBERGH AND HIS BRIDE

Photograph shows Colonel Charles Lindbergh and his bride, formerly Miss Anne Morrow, daughter of D. W. Morrow, United States ambassador to Mexico, at Mitchell Field, L.I., where they witnessed the test flight in the Daniel Gutzendheim safe-aircraft competition. This is their first appearance since their marriage on May 27. Col. Lindbergh is a trustee and consultant of the Daniel Gutzendheim Fund for the promotion of aeronautics. Out Of Their Element

Esquimaux Boys Cannot Stand Climate Of Eastern Canada

Ben Eli, nine-year-old son of Chief John Eli, head of the Southampton Island Eskimos, and Sam Padgett, who have been endeavoring to learn the ways of civilization at Lakeside preparatory school, near Peterboro, Ont., have been forced to give up their studies there and hurry home on account of illness.

Ben and Sam soon became favorites at the Lakeside school where they have been for two years, but just before Christmas both were forced to relinquish their studies to face an ordeal of sickness. Influenza, pneumonia, measles, tonsillitis and operations for mastoids and adenoids proved too gruelling a test for little Esquimaux constitutions and it has been decided to send them back to their northern home.

Evidently Not

In a small country town they were discussing the question of a brighter Sunday.

Various proposals were put forward, and some during soul suggested a Pleasant Sunday Afternoon. A dignified old lady rose in the meeting and said: "There will be no pleasant Sunday afternoon where I am."

Rush For Homesteads

Homesteads are being sold on at the rate of 100 a week in the Edmonton Land Office.

To Study Oriental Trade

Graduate Of University Of B.C. Has Gone To Japan

Possessor of a \$1,000 scholarship for the study of Oriental North American trade conditions, Howard Nichols, Vancouver, 20-year-old University of British Columbia graduate, sailed recently for Yokohama. The scholarship is the first of three granted for the promotion of knowledge in Canada of Oriental trade by H. R. MacMillan, Vancouver lumber exporter. It provides \$1,000 for one year, free expenses and transportation between Vancouver and the Orient. It is open to all University of British Columbia students who prove themselves in the study of economics.

Hundred Million Sheep

Australia owns 100,000,000 sheep, which, although less than one-seventh of the world's flocks, produce annually nearly one-third of the world's wool. It is estimated that 80,000 families in Australia own sheep.

Figure It Out

"Which is the most valuable—a golden sovereign or a 31 note?"
"The note, because when you put it in your pocket, you can double it."

"Quite right. And when you take it out you find it increases."

If the city of Duluth, Minn., were moved to Nevada, the state would nearly double its population.

PREMIER FERGUSON CHRISTENS AEROPLANE

Premier Ferguson, of Ontario, christening the "Imperoyal," a Gypsy Moth plane, presented to the Aviation League of Canada by Imperial Oil Limited, at the opening of the Hamilton Airport recently. The plane is being used by Major-Gen. J. H. MacBrien, C.B., C.M.S., D.S.O., in his travels about the country in the interests of aviation.

Ontario Pension Act

Qualifications Necessary For Those Who Wish To Take Advantage Of Old Age Fund

Persons who have reached the age of 70 years, being British subjects, resident in Canada 20 years, and in Ontario five years, and who are not in receipt of income to the amount of \$305 a year, may apply for pensions under the Ontario Old Age Pensions Act as defined by order-in-council and published in the Ontario Gazette.

To receive the pension applicants must not be Indians as defined by the Indian Act. Any voluntary assignment or transfer of property made for the purpose of obtaining the pension will disqualify the applicant under the act.

A son or daughter with sufficient means is bound to provide for maintenance of a dependent parent, the Pensions Act not relieving them from this obligation.

Employment At Highest Peak

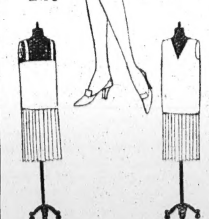

Indications Of Great Activity In Business Throughout Dominion

What is regarded as a reliable indicator of the good condition of business generally in Canada is the official report on employment throughout the Dominion. On June 1st of this year, employment was at the highest level of any month on record, showing 1,046,755 persons employed by 6,752 firms, an increase of 53,303 persons in employment compared with May 1, 1929. This increase of 53,303 or 5.4 per cent. brought the index number to 1224 or over three points above the previous level in the last nine years, recorded in August 1, 1920. Increased employment has been due to the great activity in all lines of manufacturing, construction, lumbering and other industries.

Heating By Radio

Centralized Stoves No More Impossible Than Sending Music Around World

While some, perhaps many, of the seers prophesied for days to come may be far-fetched and foisted on a gullible public, all the amazing triumphs of the modern age were once in a similar case. Had anyone foretold the dawning of radio not so long ago, ridicule would have been his portion. So the telephone was a miracle in its day, and the typewriter had to fight its way into universal use. Who could have foreseen the place the automobile was destined to occupy from its first examples or induced people to believe that white cold could be harnessed for the service of mankind. Now we are told that radio will bring light and power to our homes and industries and provide heat as well. Centralized stoves instead of central heating plants are no more impossible than sending music round the world without visible agency.

Just one stove for the entire city and that raised 1,000 feet in the air, is the possibility announced by Paris, France. The scheme entails the establishment of wireless energy to be sent from the top of the Eiffel Tower. In each house there would be set up a machine, like, yet unlike a radio, that would intercept the waves, transform them into heat and become a radiator to warm the rooms. The proposed waves would be of 400 to 500 volts in waves of two to three meters' length. All that is needed is to place on the receiving posts a filament that the wireless flow will cause to incandescence, and you will have your stove unit. Given enough such filament units and you have your heating or cooking stove minus coal, oil, gas or wired electricity.

Sale Of School Lands

Great Interest Shown In This Year's Auction Sales Held In West

Unprecedented interest was manifested in this year's auction sales of school lands in Saskatchewan and Alberta. Attendance at the various points where sales were held was high, and reached 1,000 at some points. Many farmers acquired additional land adjoining their present holdings for the purpose of extending their operations, or to make provision for their sons. Many of the buyers of these lands were "new Canadians" who have prospered in western Canada.

In all, some 728,000 acres of land were sold, for a total of \$10,192,829. Prices paid ranged all the way from \$8 to \$70 an acre. In Saskatchewan, 4,402 parcels were sold, the average price being \$12.81 per acre, and in Alberta 43 parcels, the average price being \$13.53 per acre. Two of the heaviest sales were at Assiniboia, Sask., where \$1,400,000.00 was realized, and at Rosemount, Sask., where \$1,216,000.00 was taken.

Grandmother Says

"That when she was a wee, tiny baby and her mamma did not have enough milk to nurse her, she gave her Eagle Brand Milk, which made her strong and healthy and now my mamma is giving me Eagle Brand, and I have gained over half a pound a week since I was three months old."

The high quality, uniformity and economy of Eagle Brand make it the first choice for cooking and table use.

If your baby is not gaining in weight as it should—if it cries or is fretty or restless—something must be the matter with it.

In this paper from time to time you will find an advertisement of Eagle Brand Milk, a food that has raised more healthy babies than all the prepared infant foods combined. Cut out the advertisement and mail it to The Borden Company, Limited, 140 St. Paul St. West, Montreal, and they will send you, free of charge, a very helpful baby welfare book containing authoritative feeding directions and a vast amount of useful information on the care of baby. Also ask for Baby Record, a diary of baby's progress.

How the jungle received the member of the society for the protection of animals. Campana de Gracia, Barcelona.

A Friend to Women

If Lydia E. Pinkham were alive today she would be one hundred and nine years old. Her descendants continue to manufacture her famous Vegetable Compound and the integrity of four generations is behind the product. In many families today, mothers are teaching their thirteen year old daughters to depend upon the same medicine their grandmothers praised back in 1870.

The Singing Fool

By HUBERT DAIL

Copyright, 1928, Warner Bros. Pictures, Inc.

SYNOPSIS

After a night of revelry at a New York uptown night club, Marcus, the famous revue producer, takes a party of four to Blackie Joe's downtown club, which stays open until sunrise. They are seated at a "singable table" by Al Stone, Blackie's chief comedian and singing waiter, who takes their order for beer. Al is unaware of Marcus's identity. Grace, the cigarette girl, is devoted to Al and really in love with him, but he does not see that. Al fills the order for beer and on his return from the bar sees Molly, the ballad singer in her dressing room. He moves toward her as if drawn by a magnet. He is in love with her, but Molly is indifferent to him.

CHAPTER III.

Al entered Molly's dressing room, depositing his tray of beers on a nearby stand. He forgot the drinks, forgot the party of fashionably dressed men and women who were impatiently waiting for them in the big room outside, forgot everything except the girl he adored—Molly.

He stood quietly by her side for a moment, saying nothing. And Molly, the ballad singer, looked at him with a look of surprise, as she sat before her dressing table. She wished to goodness that this singing waiter, who was always composing silly songs, would transfer his attentions to someone else. But, finally, she couldn't escape the penetrating insistence of his eyes as he gazed over her shoulder at her decidedly attractive reflection in the mirror. She turned her head with a sigh of resignation, and said ambiguously:

"Aln't love grand?"

Al did not know quite what she meant by that. If she were spoofing him, well, she could—he didn't mind. Whatever she did she couldn't prevent his loving her. But now her remark unloosed the flood gates of his speech.

"It can't help it, Molly. If I'm crazy about you," he whispered ardently, coming still closer, "I've been that way ever since the first time I saw you. I think you're the most beautiful girl in the world—on the level, I do!"

Al longed to reach out and stroke her glossy golden hair; he wanted to catch her beautiful little white hands and pull her close to him. But he realized he couldn't do that now;

her attitude said so plainly, "Stand off!"

As for Molly, she was mildly pleased and flattered at the impression she had made. No woman dislikes being called the most beautiful girl in the world, even if she doesn't love the man who says it. But, after all, he was just a singing waiter, a chap with no prospects. She said to him crisply:

"Be yourself, waiter."

The remark should have been like a slap in the face to Al, but it wasn't. If he had stopped to think he would have known she addressed him as "waiter" simply to humiliate him.

"You know, Molly," he began earnestly, "I'm not going to be a waiter all my life. Some day I'm going to sell some of the songs I've written. Don't you see, Molly, that if I just have you by my side I can't miss. I can write ballads that will put yours big make you the talk of Broadway!"

Molly's boredom was apparent. "Oh, run along, Al. I've heard all that talk before."

But Al scarcely heard her words. He was reaching in his coat pocket for some of the songs he had written. He drew them out, sorted them in nervous haste, and produced the one most precious to him. "Allegro," this was the heart-throb song he had written just the night before, thinking of Molly every moment during the creation of it. As he had penned the words and arranged the music he had visualized Molly singing it in her lovely, sensuous contralto voice. It was her song; she had inspired it completely.

Molly had returned to her make-up boxes; she did not even glance up as Al extended the song for her inspection.

"Molly!" he pleaded desperately, "Can't you see that, although I can't talk the way I feel, I can write my feelings into music. I've written this song just for you. I want you to do something for me—sing it to-night!"

Al's beseeching tone would have brought a sympathetic response from almost any woman, but not Molly. She was humming softly to herself as if to drown out his words. Meanwhile, the beers stood on the nearby table, the white, feathery foam gone from their tops. Meanwhile, Marcus the great producer, was in the outside room raging at the delay.

He rapped peremptorily on the table and finally summoned Blackie Joe himself to make a complaint. Blackie listened, nodded rapidly, and headed for the bar in search of Al. But at the doorway he glanced down

the corridor and saw his singing waiter in earnest confab with Molly. Blackie took the situation in at a glance, but decided not to haw! out Al. After all, when a man's in love, you must expect him to be barmy, reasoned Blackie. He stepped to the doorway and said, not unkindly, "Come on, Al—on the job!"

Al turned to his tray of beers but, before picking it up, thrust his precious song on Molly's dressing table before her.

"Read the words, please," he begged and, catching up his tray, vanished.

Blackie Joe stood nonchalantly in the doorway, one hand thrust into his trousers' pocket, staring after Al's retreating back. Then the proprietor turned to Molly.

"Molly, do your stuff tonight. Marcus is out in front."

Molly straightened as if touched by an electric shock. All trace of boredom vanished.

"Shut my mouth, Blackie! I don't mean it, not Marcus who puts on the roof revues?"

"No one else but," said Blackie, nodding delightedly.

The glow in Molly's eyes was replaced by a cool, calculating stare. Marcus was outside, what an opportunity! Marcus, whose approval meant fame!

"Blackie," she begged, "introduce me?"

Blackie nodded "Okay, I'll do that"—and returned to his floor show. Two boy hoovers were strutting their stuff near the Marcus table, while Al was serving the belated beers.

As Blackie came closer, he heard Marcus's protesting voice:

"There's a fly in my beer!"

Al leaped over, quick as a flash, and answered:

"Sh-h! Not so loud, they'll all be wanting them."

Marcus turned away in annoyance. Al shouldn't wisecrack that way with such a man, thought Blackie. It was all right with the regular patrons, but not with anyone like Marcus. But before Blackie could smooth things out, Al had picked up the glass and hurried off to bring a new beer.

At the bar doorway he again confronted Molly in her most gorgeous costume, garbed for conquest.

"Molly, did you like it?"

"Like what?"

"My song. Will you sing it?"

Molly's eyes flashed in sudden anger. "For heaven's sake, Al, let me alone! I've important business on tonight. I didn't read it and I won't sing it! That's flat!"

As Al recalled before her lashing words his gaze dropped. His song lay on the floor—under Molly's slim, high curving heel!

(To Be Continued...)

Canadian Is Head

Of Air Corporation

Graduate Of Toronto University
President Of World's Largest
Aviation Concern

Clement M. Keyes, a native of Chatsworth, Ont., and graduate of the University of Toronto, is to head the largest aviation concern in the world. This became known coincident with the announcement of the Wright Aeronautical Corporation, Curtiss Aeroplane and Motor Company, of which Keyes is president, and ten affiliated companies.

The merger which is to be effected through the formation of a holding company—Curtiss, Wright Corporation—brings together, the business founded by America's three pioneers—the Wright brothers and Glenn Curtiss.

Curtiss Wright Corporation will have assets of \$70,000,000, but at current market values it will rank as a several hundred million dollar concern.

Mr. Keyes is to be president of the new holding company. Mr. Keyes, who is 31 years of age, is of Irish and Welsh descent. Graduating from Toronto University in 1917, he came a few years later to New York. He entered newspaper work in Wall Street in 1901. In 1911, he established a bond business. From there, he stepped into the aviation industry, becoming president of Curtiss Company.

Most Important

"I suppose there are many problems which Polar explorers seek to solve?" said the unscientific man. "Yes," replied the traveller, "a great many."

"What is the most important one?"

"Getting back."

Michigan has by far the greatest coastline of any state.

In Czechoslovakia, 15,000 persons are engaged in tobacco growing.

Made Police Doubt

Finger Print System

Clever Crook Found Method To
Puzzle Police Of Three
Continents

The finger print as a means of identification has ceased to be infallible. Quite apart from the ordinary use of rubber gloves, there is at least one case on record of a crook who threw doubt upon the whole international system of this method of identification. This criminal was Louis Chibolleire, a French doctor who disgraced himself in the profession, served a sentence in prison, and then became a burglar. Once outside the prison gates he set himself the task of finding a method to thwart the finger-print system. He used his professional knowledge to secure a job in the School of Medicine at Lyons. There, with great skill, he contrived to take the skin from the thumbs and fingers of a corpse, being careful afterwards to hide his handiwork by applying chemicals that speeded up decomposition.

He then mounted the skin on specially prepared parchment and set out upon a series of audacious burglaries. He deliberately left finger-prints of a known, but dead, crook. His method of using the gruesome device was first to press it against his chest and so moisten the skin for the impress, and then lay it over various articles in the room where he had committed the burglary. Chibolleire confessed to all this on his death-bed; but not before he had given the police of three continents very grave reason to doubt the reliability of the finger-print system. The professional crook of today is very often a man of scientific attainments, but they are matched against equally clever brains.

Density Of The Stars

The enormous density of certain stars, was the theme of an address recently given before the Institute of Mechanical Engineers, in London, by Prof. A. S. Eddington. "There are two or three stars known to us which are believed to possess marvellous density. The best-known of these is the companion of Sirius. The density is found to be 60,000 times that of water. A ton of its material would go inside a match-box."

"Your wife is talking of going to France this summer. Have you any objections?"

"No, certainly not, let her talk."

Mountain Being Eaten Away

Oxen In South Africa Find Salty
Clay Palatable

Oxen have eaten away 10,000 tons of earth from the side of a mountain, near Pretoria, South Africa.

Natural salt deposits, which cattle are fond of licking, are common all over the world, but in this case the animals have apparently been making whole and satisfying meals from the earth itself. So far they have made a cave 10 feet high and 50 feet across deep into the mountain—and they are still eating. They have almost entirely given up eating grass, but they have the appearance of being thoroughly well fed.

Samples of the earth from the cave have been sent to Johannesburg analysts. It is easily crumbled into fine dust and is practically tasteless to the human tongue. Experts state it appears to be a clay containing potash and mineral salts, which would make it attractive to cattle with an abnormal appetite.

MADE HER BABY

PLUMP AND WELL

Nothing makes a mother more grateful than a benefit conferred upon her child. Mothers everywhere who have used Baby's Own Tablets for their children speak in enthusiastic terms of them. For instance, Mrs. Zepherin Lavoye, Three Rivers, Que., writes: "Baby's Own Tablets are a wonderful medicine for little ones. They never fail to regulate the baby's stomach and bowels and make him plump and well. I always keep a box of the Tablets in the house and would advise all mothers to do likewise." Most of the ordinary ailments of childhood arise in the stomach and bowels, and can be quickly banished by Baby's Own Tablets. These Tablets relieve constipation and indigestion, break up colds and simple fevers, expel worms, allay teething pains and promote healthy sleep. They are guaranteed to be free from injurious drugs and are safe even for the youngest and most delicate child. The Tablets are sold by medicine dealers or by mail at 25¢ a box from The Dr. Williams' Medicine Co., Brockville, Ont.

In Buckingham Palace

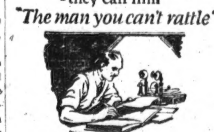

Private Telephone and Telegraph
Office Part Of Equipment

Very few people are aware that there is within Buckingham Palace a very completely equipped telegraph office, together with a private telephone exchange. So great has been the number of enquiries here lately respecting the health and progress of the King, that it has become necessary to increase the staff usually employed, and for this work specially qualified officials have been selected.

Has Overcome Handicap

How a 17-year-old Toronto boy, paralyzed since infancy and unable to write, dictated his matriculation examinations has been described by Premier Forgeson. He answered questions in the presence of the provincial registrar and is expected to obtain good marks.

-they call him
"The man you can't rattle"

Many successful business men regularly use Wrigley's. The act of chewing has a soothing effect. The healthful cleansing action of Wrigley's refreshes the mouth—gently stimulates the flow of the natural juices—steadies the nervous—aid digestion.

Little Helps For This Week

"I will lay down My life for thy sake."—John xiii. 37.

Many loved Truth, and lavished life's

Amid the dust of books to find her; Content at last, for guerdon of their toll.

With the cast mantle she hath left behind her. Many in sad faith sought for her. Many with crossed hands sighed for her.

But these, our brothers, fought for her. At life's dear peril wrought for her. So loved her that they died for her. —James Russell Lowell.

The seeds of truth sown by great and loyal men bear fruit through all the years to be. To have lived and labored and died for the right, nothing can be sublimer.

Discover Old-Dinosaurs

The skeletons of dinosaurs believed to be 80,000,000 years old yet well preserved, were discovered by Dr. Sven Hedin, world-famous Swedish scientific explorer, during his expedition to the Gobi desert. He reported on his return to Victoria, B.C., from Asia.

Use Miller's Worm Powders and the battle against worms is won. These powders correct the morbid conditions of the stomach which nourish worms, and these destructive parasites cannot exist after they come in contact with the medicine. The worms are speedily evacuated, with other refuse from the bowels. Soundness is imparted to the organs and the health of the child steadily improves.

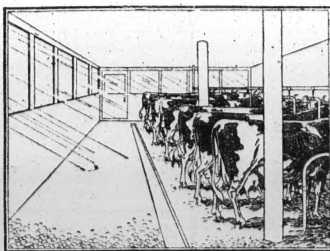

Lake Titicaca in Peru, 12,644 feet above sea level, is the highest point in the world where steamers are found.

Minard's Liniment for Rheumatism.

Of the 12 biggest banks in the world eight are said to be British with five of them in London.

WINDOLITE The Improved Glass Substitute

MADE IN ENGLAND

WINDOLITE stands for 100 per cent. sunlight. It makes light pour strong windows for cattle sheds, dairy stables, poultry houses, brooders and all out buildings. It will not crack or chip—cuts with an ordinary pair of scissors and is easy to fit. WINDOLITE is supplied in rolls any length but in one width of 36 inches only. A square yard of WINDOLITE weighs about 14 lbs., while a square yard of glass of ordinary thickness, weighs about 135 to 140 lbs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price \$1.50 Per Square Yard, L.o.b., Toronto.

Use WINDOLITE and let

Reduce the Acid

Sick stomachs, sour stomachs and indigestion usually mean excess acid. The stomach nerves are over-stimulated. Too much acid makes the stomach, and intestines sour.

Alkali kills acid instantly. The best form is Phillips' Milk of Magnesia. It is a harmless, tasteless dose neutralizes many times its volume in acid. Since its invention, 50 years ago, it has remained the standard with physicians everywhere.

Take a spoonful in water and your unhappy condition will probably end in five minutes. Then you will always know what to do. Crude and harmful methods will never appeal to you. Go prove this for your own sake. It may save a great many disagreeable hours.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acid. Each bottle contains full directions—any druggist.

EVERYBODY WELCOME

Come and have a good time.

Main Street

Mr. and Mrs. P. J. Hardy motored to the city Wednesday.

Mr. and Mrs. Pryce Jones are spending their holidays at Salt Lake near Chauvin.

Mrs. Schonert and Family have been in Edmonton this week.

Mr. and Mrs. Victor Larson left this week for a motor trip to their former home in Minnesota.

The Village fathers have had a grader working on Third Avenue West which was badly needed.

Mr. and Mrs. P. E. Jones left the first of the week for a motor trip to Cold Lake.

Jim Pond, proprietor of the Irma Bakery motored to Edmonton Monday.

Mr. and Mrs. F. M. Hill and family motored to the city on Wednesday.

Mr. and Mrs. G. A. Tripp have been taking in the Edmonton Fair this week.

Mr. J. R. Love spent the week end at Irma.

A meeting of the W. A. will be held at the home of Mrs. Miles on Tuesday afternoon, July 23rd, at 2:30 P.M.

Mr. and Mrs. Robert Kasten and Mr. and Mrs. J. C. McLean were among the Fair visitors at Edmonton this week.

Miss Victoria and Bessie Vickers of Edmonton spent the week end with their uncle Mr. W. H. King at Irma.

Mr. N. D. McMillan, of Bremner, has been spending his vacation with his brother Mack McMillan in the Alma Mater district.

The Anglican Church service will be held at the Masonic Hall on Sunday, July 21st at 11 A.M. followed by Sunday School.

Mrs. A. L. Weir, who has been in business in Edmonton for the last eighteen years has sold out her business and is visiting with her nephew Mr. E. L. Elford at Irma.

Mrs. Violet Cooper, of the Dominion Chautauque, arrived in Irma Wednesday to assist in the arrangements for the coming Chautauque which will be in Irma on August 6-7-8-9.

A bay mare weighing about 1200 lbs., and branded reverse BT on right flank was killed on the railroad track about three miles west of Irma, Saturday afternoon.

Mr. J. W. Grant and Mr. T. T. McLeod of Missouri, Montana, have been visiting Mr. F. Coe and G. B. Grant of Jarrow.

A large number of citizens of the Irma district attended the U. F. A. Picnic at Wainwright Monday and Tuesday.

Mr. and Mrs. E. W. Wood, of Portage la Prairie, Manitoba, have been visiting Mrs. Wood's sister Mrs. Geo. Hipperson. Mr. and Mrs. Wood and Mr. and Mrs. Hipperson motored to Edmonton Wednesday afternoon to take in the fair.

Miss Alice Fluwellling received word Monday morning that her nephew Mr. Harry Fluwellling, of Lacombe, had been drowned Sunday afternoon in Jack Fish Lake. Miss Fluwellling and her mother left for Lacombe on the evening train to attend the funeral.

The Women's Institute will meet at the home of Mrs. L. A. Hager, August 1st. Everybody will be welcome and a special invitation to all grandmothers in the district is extended, so all turn out, young and old, and make this a big meeting. Mrs. Hager lives two miles west and one mile north of Irma.

GEO. BENNETT WILL ADDRESS LOCAL WHEAT POOL MEETINGS

Only best quality paint to be used. Also 60 sq. ft. of blackboard to be painted and re-slatted with materials provided. The lowest or any tender not necessarily accepted.

T. Paul Richmond, Sec.-Treas. Hardisty. 3tc.

CROP MANAGEMENT

FOR WEED CONTROL

A thorough summerfallow will usually be the most effective method of bringing the most persistent growing perennial weeds under control. When it is necessary to resort to the summerfallow as a weed control measure, it is advisable to adopt some systematic rotation of crops, with regular seeding down to grass and legumes at short intervals.

Many farmers feel that they can ill afford to free their land of weeds by a method which will not give a crop of some kind. While the eradication of perennial weeds such as sow thistle, quack grass, etc., necessitates the use of the fallow, such treatment does not free the land from many annual weeds such as wild oats, mustard, or stink weed, hence it is necessary from an economic standpoint to adopt farming methods that control rather than eradicate such weeds.

Land that is badly polluted with perennial weeds will produce an excellent crop of winter wheat or rye. Both of these crops act as smother crops for all types of weeds if they get a good start in the fall and do not winter kill.

Barley and oat green feed if handled properly will effectively compete against most of our annual weeds and many perennials. Land to be used for these crops should be partially fallowed before seeding. It is usually wise to dis tillage a week or so before ploughing and thus promote germination of weed seeds which matured with the preceding crop and fell on the ground. A succession of such crops and treatments tends to reduce the weed seed content of the soil.

Seeding down to grass and legumes and cutting the hay crop early will prevent most kinds of weeds from ripening, thus decreasing the number of vital seeds in the sub-surface soil from year to year. Alfalfa and sweet clover are the best crops to use for this purpose.

Live stock and particularly sheep are valuable aids in weed control. Live stock are most essential to profitable agriculture on a weedy farm, as many of the crops which control weeds are not cash crops and can be marketed to best advantage by the live stock route. In addition to this, many perennial weeds with a creeping root system such as quack grass can be much more easily eradicated if the land is seeded down and left in pasture for a few years until it becomes sod bound.
